

Habitat of Javan Leopard (*Panthera pardus melas* Cuvier 1809) in Pine Plantation Forest Landscape.

H.Gunawan, L.B.Prasetyo, A. Mardiasuti, A.P.Kartono

Javan leopard naturally distributes in Java Island, Kangean Island, Nusakambangan Island & Sempu Island. The Javan leopard lives in varying habitat due to their tolerance to various climate & prey. In Central Java, the leopards occupy teak forest, pine forest, mixed plantation forest, lowland natural forest as well as mountain natural forest. The research focus on characteristic of pine plantation for Javan Leopards habitat. Detailed description of the paper can be downloaded [here](#)
